2005 AUTHOR AND SUBJECT INDEX

The following is an index of all reports, papers, design-construction articles, and discussions that have appeared in the *PCI Journal* during the past year. This index is the fourteenth supplement to the *PCI Journal* 10-Year and 25-Year Indexes, which comprehensively reference all reports, articles, and discussions published in the *Journal* from V. 1, No. 1, May 1956 through V. 36, No. 6, November–December 1991.

Listed first is the Author Index, which includes, in alphabetical order, the names of all contributing authors for 2005, followed by the title, volume, number, date of publication, and page numbers for each report, article, or discussion. The material is then classified in chronological order under various subject categories. Depending on their scope, some articles are listed under more than one heading.

Many recent back issues of the *PCI Journal* are still available. In addition, several of the more important articles are available in reprint form. In cases where individual reprints are unavailable, copies of articles can be obtained at cost of reproduction.

AUTHOR INDEX

A

Anderson, Neal S.
- "Pryout Capacity of Cast-In Headed Stud Anchors," V. 50, No. 2, March–April 2005, pp. 90–112.

Arrowood, John
- "Precast Concrete Provides Function and Inspiration for Prince of Peace Church, Taylors, South Carolina," V. 50, No. 2, March–April 2005, pp. 28–43.

Asnaashari, Ali
- "Precast Concrete Design-Construction of San Mateo-Hayward Bridge Widening Project," V. 50, No. 1, January–February 2005, pp. 26–43.

Aswad, Alex
- Disc., "Load Testing of Prestressed Concrete Double Tees Without Web Reinforcement," V. 50, No. 1, January–February 2005, pp. 116–117.

B

Banks, Gregory
- "Analysis and Design for End Effects in Twisted Double Tees," V. 50, No. 3, May–June 2005, pp. 40–59.

Baran, Eray
- "Analysis of the Flexural Strength of Prestressed Concrete Flanged Sections," V. 50, No. 1, January–February 2005, pp. 74–93.

Baseheart, T. Michael
- "Testing of Two 50-Year-Old Precast Post-Tensioned Concrete Bridge Girders," V. 50, No. 3, May–June 2005, pp. 90–95.
- Disc., "Testing of Two 50-Year-Old Precast Post-Tensioned Concrete Bridge Girders," V. 50, No. 5, September–October 2005, pp. 116–117.

Bhidé, Shri
- Open Forum, Problems and Solutions, "Issues in Design and Fabrication of Precast, Prestressed Concrete Bridges," V. 50, No. 2, March–April 2005, pp. 116–117.

Birkle, Gerd
- Open Forum, Problems and Solutions, "Proper Detailing of Precast/Prestressed Concrete Girders," V. 50, No. 5, September–October 2005, pp. 118–119.
- Open Forum, Problems and Solutions, "Proper Detailing of Precast/Prestressed Concrete Girders," V. 50, No. 6, November–December 2005, pp. 110–111.

Blandon, John J.
- "Tests on a Half-Scale Two-Story Seismic-Resisting Precast Concrete Building," V. 50, No. 1, January–February 2005, pp. 94–114.
- "Behavior of Connections and Floor Diaphragms in Seismic-Resisting Precast Concrete Buildings," V. 50, No. 2, March–April 2005, pp. 56–75.

Bonus, Wayne
- "Truck Load Distribution Behavior of the Bridge Street Bridge, Southfield, Michigan," V. 50, No. 2, March–April 2005, pp. 76–89.

Brice, Richard
- "Flexural Strength of Reinforced and Prestressed Concrete T-Beams," V. 50, No.1, January–February 2005, pp. 44–73.

Burkett, William R.
- "Formulation of New Development Length Equation for 0.6 in. Prestressing Strand," V. 50, No. 5, September–October 2005, pp. 96–105.

Burnley, George
- Disc., "Load Testing of Prestressed Concrete Double Tees Without Web Reinforcement," V. 50, No. 1, January–February 2005, pp. 116–117.

Burns, Ned H.
- "Design-Construction of a Precast, Prestressed Concrete Pavement for Interstate 10, El Monte, California," V. 50, No. 2, March–April 2005, pp. 18–27.

RESEARCH

- "Truck Load Distribution Behavior of the Bridge Street Bridge, Southfield, Michigan," Nabil F. Grace, John J. Roller, Frederick C. Navarre, Richard B. Nacey, and Wayne Bonus, V. 50, No. 2, March–April 2005, pp. 76–89.
- "Seismic Design Methodology for Precast Concrete Diaphragms—Part 1: Design Framework," Robert B. Fleischman, Clay J. Naito, José Restrepo, Richard Sause, and S. K. Ghosh, V. 50, No. 5, September–October 2005, pp. 68–83.
- "Formulation of New Development Length Equation for 0.6 in. Prestressing Strand," Mehmet M. Kose and William R. Burkett, V. 50, No. 5, September–October 2005, pp. 96–105.
- "Seismic Design Methodology for Precast Concrete Diaphragms—Part 2: Research Program," Robert B. Fleischman, Clay J. Naito, José Restrepo, Richard Sause, S. K. Ghosh, Ge Wan, Matt Schoettler, and Liling Cao, V. 50, No. 6, November–December 2005, pp. 14–31.

RESIDENTIAL

- "NU Precast Concrete House Provides Spacious and Energy Efficient Solution for Residential Construction," William W. Holmes, David Kusolthamarat, and Maher K. Tadros, V. 50, No. 3, May–June 2005, pp. 16–25.
- "University Village Mid-Rise Condominiums, Chicago, Illinois," George D. Nasser, V. 50, No. 3, May–June 2005, pp. 108–111.
- "Davis Residence Garage, Dillsburg, Pennsylvania," George D. Nasser, V. 50, No. 5, September–October 2005, pp. 112–115.
- "Archer Courts Townhouses, Chicago, Illinois," George D. Nasser, V. 50, No. 6, November–December 2005, pp. 96–101.

SEISMIC RESISTANCE

- "Seismic Design of Partially Post-Tensioned Precast Concrete Walls," Yahya C. Kurama, V. 50, No. 4, July–August 2005, pp. 100–125.
- "Seismic Design Methodology for Precast Concrete Diaphragms—Part 1: Design Framework," Robert B. Fleischman, Clay J. Naito, José Restrepo, Richard Sause, and S. K. Ghosh, V. 50, No. 5, September–October 2005, pp. 68–83.
- "Seismic Design Methodology for Precast Concrete Diaphragms—Part 2: Research Program," Robert B. Fleischman, Clay J. Naito, José Restrepo, Richard Sause, S. K. Ghosh, Ge Wan, Matt Schoettler, and Liling Cao, V. 50, No. 6, November–December 2005, pp. 14–31.

TESTING

- "Tests on a Half-Scale Two-Story Seismic-Resisting Precast Concrete Building," Mario E. Rodríguez and John J. Blandon, V. 50, No. 1, January–February 2005, pp. 94–114.
- "Testing of Two 50-Year-Old Precast Post-Tensioned Concrete Bridge Girders," Rick W. Eder, Richard A. Miller, T. Michael Baseheart, and James A. Swanson, V. 50, No. 3, May–June 2005, pp. 90–95.

T-SECTIONS

- "Analysis of the Flexural Strength of Prestressed Concrete Flanged Sections," Eray Baran, Arturo E. Shultz, and Catherine E. French, V. 50, No. 1, January–February 2005, pp. 74–93.
- "Flexural Strength of Reinforced and Prestressed Concrete T-Beams," Stephen J. Seguirant, Richard Brice, and Bijan Khaleghi, V. 50, No. 1, January–February 2005, pp. 44–73.
